SUMMARY

Software Engineer and Full Stack Developer with a strong eye for design and a track record of taking products from concept to production. Proficient across modern front-end work (React.js, Next.js, TypeScript) and back-end frameworks (Node.js, NestJS), with experience leading small engineering teams, structuring mono-repos, and shipping multi-role platforms used across education, publishing, sports and hospitality.

EXPERIENCE

Software Engineer · Target for General Contracting
Sep 2026 – Present

Cairo, Egypt

- Building internal systems for a general contracting and supplies company, including an attendance and weekly payroll platform.
- Working across the stack on Next.js and TypeScript services backed by PostgreSQL.
- Currently expanding into .NET as part of the company's backend stack (beginner level).

CTO · SPORTON
Apr 2024 – Sep 2026

Sheraton Residences, Cairo · Creativa, Benha — incubated by Creativa Egypt · sporton.club

- Co-founded Sporton, a professional networking and career platform for athletes — a “LinkedIn for athletes” with AI features built for the sports industry.
- Led full-stack development from the ground up with Next.js, React.js, TypeScript, Tailwind CSS, Framer Motion, NestJS, PostgreSQL, Prisma and Socket.io.
- Structured the product as a mono-repo of 8 apps plus a shared backend of 140+ modules.
- Shipped athlete profiles as digital CVs, AI match analysis from uploaded footage, real-time chat and notifications, advanced search, AI moderation and a sports marketplace.
- Hired, mentored and managed the development team: code review, task assignment and delivery quality.
- Defined and executed the technical roadmap alongside the business strategy, and ran the platform on a performance-tuned VPS.

Frontend / Full Stack Developer · Freelance / Self-employed
Jul 2023 – Present

Remote

- Delivered responsive, high-performance web applications for clients across education, publishing, hospitality and services.
- Built full-stack products with Next.js, React, TypeScript, Node.js, NestJS, PostgreSQL, Prisma, MongoDB and Tailwind CSS.
- Shipped custom dashboards, e-commerce platforms, landing pages and admin panels with authentication, payments and real-time features.
- Handled requirements gathering, deadlines, ongoing support, SEO, accessibility and mobile responsiveness.

Core Team Front End Developer · GDSC — Google Developer Student Clubs
Sep 2023 – Oct 2024

Benha University

- Taught HTML, CSS, JavaScript and React.js to engineering students in the GDSC community.
- Ranked 1st globally in my season with the chapter.

SELECTED PROJECTS

Chef Nadia Elsayed Platform
2026

Cooking platform — web, mobile, admin and AI assistant · nadia-web.booksplatform.net

- Led the engineering team delivering Phase 1: a mono-repo of four independently governed projects on a shared PostgreSQL and Redis.
- Flutter app for iOS and Android, a .NET 10 REST API, a Next.js 16 admin console and a Python/FastAPI RAG service that answers cooking questions in the chef's own Egyptian-Arabic voice.
- Built recipe authoring with machine-usable ingredient amounts, serving-based scaling, weekly meal planning, ingredient matching and a step-by-step cooking mode.

iFACE Global Board
2026

Sovereign enterprise OS for an international accreditation board · ifacegb.net

- Bilingual (Arabic/English) platform operating across 22+ countries and five strategic sectors, with RTL built in rather than bolted on.
- Public site, grants portal, agents map and public certificate verification, plus role-based dashboards for centers, agencies, trainers and students.
- Next.js 16, React 19, Prisma, PostgreSQL, Redis + BullMQ, Socket.IO, Stripe, and blockchain-anchored certificates.
- Includes a no-signup demo sandbox that provisions a disposable environment with sample data.

Books Platform
2026

Bilingual books discovery and publishing platform · booksplatform.net

- A window for Arabic readers onto every new book published worldwide: 4,300+ titles and 700+ publishers, classified as translated, untranslated or nominated for translation.
- Next.js 16 web app plus a Flutter mobile app on a shared REST API and PostgreSQL 16.
- Editorial series, media episodes, a publisher portal, Cloudflare R2 storage, Upstash rate limiting, JWT with passkeys, and web push plus FCM notifications.

AIAETAR Institute
2026

American Institute of Applied Education for Tourism & Administrative Research · aiaetar.com

- Bilingual site for a licensed institute with 50+ internationally accredited programmes across tourism, hospitality, engineering and quality management.
- Programme catalogue, trainer profiles, resource library, gallery and public certificate verification, with a full admin console behind it.
- Next.js 16, Prisma 7, PostgreSQL, Cloudinary, Zod validation and Excel export.

SPORTON
2024 – 2026

Sports social platform · sporton.club

- Mono-repo full-stack platform helping 800K+ Egyptian athletes market themselves to brokers, clubs, institutes and brands.
- Athlete profiles as digital athletic CVs, an AI match analyzer, an AI spam filter and a sports marketplace.
- Monetised through pro accounts and advertising.

IAFCE Academy System
2025

LMS for a regional academy · iafce.net

- Mono-repo of 12 applications covering every academy role, on a central backend of 60+ modules.
- Student portal, instructor dashboard, parent access, accounting and HR panels, super admin, public relations and secretariat panels.
- Scales across multiple branches, each with its own sub-platform inside one ecosystem, with live classes and real-time events.

Almanafth
Feb 2025 – Apr 2025

Home services marketplace · manfaz.vercel.app

- Platform connecting users with verified providers for plumbing, electrical work and cleaning, built around reliability and easy booking.

EDUCATION

Computers & Artificial Intelligence · Benha University
Sep 2020 – Jun 2024

fci.bu.edu.eg

- C++, OOP, Python, JavaScript, Java, Dart/Flutter, Machine Learning, Computer Vision, Data Science and UI/UX.

SKILLS

Frontend
React.js, Next.js, TypeScript, Tailwind CSS, Framer Motion, HTML/CSS, Bootstrap

Backend
Node.js, NestJS, REST APIs, Socket.IO, .NET (beginner)

Data
PostgreSQL, MongoDB, MySQL, Prisma, Redis

Practices
OOP, mono-repo architecture, Git/GitHub, Docker, code review, team leadership
